PFwise.com Monthly Newsletter

Help you make wise personal finance decisions

Hello friends, welcome to the April 2016 [PFwise.com](#) Monthly Newsletter!

This newsletter will focus on a tax related topic - how to avoid tax penalty. This topic is interesting because a. you don't want to overpay your tax in advance so give Uncle Sam a free loan; b. you don't want to underpay your tax to incur a penalty later.

1. IRS Estimated Tax Payment Rules

Believe it or not, the IRS estimated tax payment rules are actually quite simple, as we outlined [here](#).

2. Complications

Unfortunately, while the IRS rules are simple, there are quite a few complications in practice as discussed in this [blog post](#), for example, your erratic annual income, 3 tax systems to deal with, state tax impacts, etc.

3. Reliefs

If you are frustrated by the need to pay quarterly tax accurately, don't worry, there are a few [reliefs](#) for you, for example, 90% rule, safe-harbor rule, etc.

Thank you for your readership! I hope through this newsletter you will have a better idea about how to pay your estimated quarterly tax and don't view it as a daunting task anymore!

If you like our newsletter, please share with your friends. They can subscribe by dropping a line to help@pwise.com or click [here](#).

The Bottom Line

Personal Finance is a broad and complicated topic, and needs lot of knowledge and forward-looking planning. I hope I can share my knowledge and use my skills to help you make wise PF decisions.
